

SPRING BRINGS YOUR PROJECTS TO LIFE

It's the perfect season to enhance your worksites and developments. Comarbois supports construction professionals through every stage of their projects, from structural work to finishing touches. Explore our wide range of materials tailored to meet real-world demands: timber, panels, hardwoods and exotic woods, as well as insulation and waterproofing solutions. Whether you're building from scratch, renovating, or upgrading outdoor spaces, we have the solutions you need. Performance, Reliability, Availability : Trust Comarbois to power your projects.

STRENGTH & VERSATILITY FOR YOUR CONSTRUCTION NEEDS

Planks are essential wooden elements used in a wide range of projects, from building structures to outdoor landscaping. Crafted from carefully selected timber and treated to withstand harsh weather and biological threats, Schaffer planks deliver outstanding durability and optimal resistance. Available at Comarbois in various sizes, they are perfectly suited to meet the demands of strength, performance, and aesthetics in both residential and industrial construction projects.

SAUERLAND TUBULAR PANELS

Tubular panels are wooden construction elements characterized by their unique tubular structure, specially designed to offer great strength and flexibility. They perfectly combine lightness and stability while guaranteeing high resistance to even the most violent impacts. Used for the manufacture of doors, they allow for low swelling in the door thickness, and are particularly suitable for doors with fragile surfaces. Tubular panels can reduce overall weight by up to 60%. In stock at Comarbois.

SPC FLOORING: NEW GENERATION OF PARQUET

SPC flooring (Stone Plastic Composite) is a rigid floor covering made from a blend of limestone powder and polymers. It is highly resistant (to water, scratches, and impacts), 100% waterproof, making it ideal for kitchens and bathrooms. It is also easy to install thanks to a clip system and it remains stable even with temperature variations. It mimics the look of wood or stone very well, while being more durable and easy to maintain. PORFLOOR SPC flooring is available at Comarbois, request a quote.
